RESPONSE TO OFFICE ACTION DATED DECEMBER 10, 2002

Dear Sir:

In response to the Office Action mailed on December 10, 2002, applicants  
present the following remarks.

Claims 1-17, 19-21, 23-29 and 58-61 stand rejected under the judicially  
created doctrine of obviousness-type double patenting as being unpatentable  
over claims 1-5, 8, 11, 14-20, and 23 of U.S. Patent No. 5,948,707. Moreover,  
claim 22 is objected to as being dependent upon a rejected base claim.

Applicants submit that the obviousness-type double patenting rejection  
should be withdrawn since the cited patent and the current application are not  
commonly owned. U.S. Patent No. 5,948,707 is assigned to Gore Enterprise  
Holdings, Inc., whereas the current application has been assigned to W. L. Gore  
& Associates (UK) Ltd. (recordation date of March 4, 1999, reel 9815/frame  
0488.) Furthermore, the current application is based upon International -  
1Application PCT/GB97/02172, which has an International filing date of August  
12, 1997. Thus, U.S. Patent No. 5,948,707 is not a valid reference against the  
current application.

Applicants note the attachment of a Supplemental Information Disclosure  
Statement which brings to the attention of the Office various documents which  
have been brought to applicants' attention in an opposition proceeding brought  
against the corresponding European patent application.
